FALL 1926

ROSA HUGONIS—"Golden Rose of China" (See Page 7)

MONEY-MAKERS!
You will make more money if you handle the novelties offered in this List.

THE CONARD-PYLE CO.

(Formerly The Conard & Jones Co.)

Robert Pyle, President

WEST GROVE, PA.

40 Miles S. W. of Philadelphia, Pa. 16 Miles North of Wilmington, Del.

INTERESTED IN MONEY-MAKING?

You have nothing to lose and everything to gain when you make your selections here. Plenteous rains and fine growing weather, combined with Pennsylvania's finest soil, have produced for you money-making plants of the highest order. Not only Hugonis, a certain profit-bringer, but the entire list of stock is of quality unsurpassed, we believe, if not unequalled, in America. It's yours! Make out your list NOW!

BUSINESS TERMS AND CONDITIONS

This list cancels all previous quotations, and the terms and conditions shown will carry in all Bulletins for Fall, 1926.

The prices printed in this list are based upon present market conditions, and are for immediate acceptance, subject to change without notice and stock being unsold. All goods are offered f. o. b. West Grove, and boxing is charged at cost. We sell 250 or more at the 1000 rate, and 25 or more at the 100 rate.

Orders are booked with the understanding that they shall become void should injury befall the stock from flood, error in count, drought, fire, or other causes beyond our control.

Shipments travel at purchaser's risk, and in the absence of definite instructions from the buyer, stock will be forwarded according to our best judgment without assuming responsibility.

Claims, if any, must be made immediately on receipt of goods.

Terms cash; except to those with established credit, who may make special arrangements for payment.

We endeavor to keep varieties true to name and will replace, on proper proof, any not true; but we do not guarantee the success of the grower. In event of untrue stock our liability must be limited to invoice value at time of shipment.

Copy of Pennsylvania State Certificate of Inspection on all orders.

We invite correspondence from prospective buyers, but ask that all communications be written on printed business stationery so that we can grant trade prices to only those individuals or firms actually entitled to receive them.

The plant names used in this list conform, for the most part, with "Standardized Plant Names" adopted by The American Joint Committee on Horticultural Nomenclature.

Members American Association of Nurserymen, Eastern Nurserymen's Association, Pennsylvania Nurserymen's Association, etc.

"As Others See Us"

"I am very much pleased with the Barberry you sent me, and had I been acquainted with the quality of your product, would have given you all of my Fall business."—From Pennsylvania.

"All my orders for Roses from your house have arrived in good condition and the stock is even better than ever."—From Illinois.

"Rose bushes received; am much pleased. The tops look healthy and they have a good root system."—From Virginia.

"Your stock was received to-day, and it was a pleasure to unpack stock like this. The Phlox, too, came well packed and in fine shape."—From Minnesota.

Box Barberry has proved to be a "best seller" with many Nurserymen

J. Horace McFarland Boosts Hugonis:

(In the May "Flower Grower")

"Fully as vigorous as Spiraea vanhouttei, this 'Golden Rose of China' makes the same sort of an outflowing, graceful, drooping plant. Of the shrub Roses, it is the first to bloom, in my knowledge, and the flowers are honestly yellow, and last sometimes for three weeks. The plant is dependably hardy and makes a desirable feature for the shrubbery border, the driveway, the garden background, the corner or a stunning hedge."

Dr. E. H. Wilson, of Arnold Arboretum, says:

"Rosa Hugonis should be in every garden, for it is the best of all hardy yellow flowering Roses and one of the most lovely plants known to cultivation."

HERE'S SOME EXTRA MONEY FOR YOU!

J. Horace McFarland, editor of The American Rose Annual, says, "There are more copies of 'How to Grow Roses' sold annually than the total sales of all other Rose Books combined."

Dr. E. M. Mills, ex-president of The American Rose Society, recommends it heartily:

> "I have received and read the new edition, 'How to Grow Roses.' Like wine, it grows better with age. If I could put only one rose book in the hands of a rose amateur, it would be 'How to Grow Roses.' It is practical and at the same time poetical. I have a large rose library, but it is the best illustration of 'Multum in parvo' that I have."

The book is cloth bound and gold lettered. It consists of 192 pages chock full of good solid Rose information—16 pages in color.
